## Pro-biotic bait concept

Through several years, **Team Catch Adventure** has been cooperated with expertise from the feeding industry. **The Pro-biotic bait** concept was developed and added to our Boilies. Ongoing test-fishing has been with very satisfying results. The **Pro-biotic Concept** is a preventive feed supplement. The bacterial intestinal flora is stimulated, which results in a high absorption of food nutrition and an optimized health. A helping hand for the fish growth, resilience, and health.

### F6 HNV Boilie

**Formel 6** has developed and been tested through times. The name is from a list with own recipes, where this one is filed as **F6**. One of Team Catch Adventure's favorite boilie, which is packed with water dissolvable proteins and natural extracts. **F6** has extremely high nutrition's value and is packed with appetite stimulators, aminos, vitamins and minerals in a perfect balance for the carps. Our **Pro-biotic concept** gives the fish an increased extraction of these riches.

The majority of this boilie attraction/flavour profile is built into the dry ingredients. First impression when tasting it, is a weak milky sweetness that is followed by a kick of chili, plus tones of anis and GLO. The smell is almost molasses with a weak supplement of fruit/spicy aroma. **F6** is hard to describe. **F6** needs to be experienced!

This natural-colored red boilie has its own variation of birdseed and is a high-leaking, shelf-life boilie. Its fish effectively for minimum 24 hours but can be decomposed by small fish or fast flowing water.

The above is only a quick look behind the veil, where the real content of dry and wet ingredients is located. But it makes a reasonable picture of the **HNV boilie F6**.

A shelf-life product in absolutely top class, for a really good price.

Product	Amount	Price/kg	Price/bag	Artcode.
18mm. F6 Boilies	3kg bags	11,50 euro	34,50 euro	601-102
24mm. F6 Boilies	5kg bags	11,50 euro	57,50 euro	601-109

## Mussel HNV Boilie

Our **Mussel HNV Boilie** is built on a rich base of water-soluble proteins and natural extracts. A high nutritional value is supported by appetite stimulators, vitamins, minerals and aminos in a good balance. The **Pro-Biotic Concept** is added to help fish maximize yield of the feed source.

*(Read about our **Pro-Biotic Concept**, in the **F6 Boilie** description on page 2).*

Besides the base, this boilie primarily unfolds a smell and taste of mussel. Mussel meal + flavor kicks through, but under neath amongst other things hides krill meal, krill flavor and pellet crumble. **Mussel HNV Boilie** is a natural brown colored, high leaking stinker, that will attract fish.

A shelf-life product in absolutely top class, for a really good price.

Product	Amount	Price/1 kg	Artcode.
18mm. Mussel Boilies	1kg bags	11,50 euro	601-111

## F6 Matching Pop-Ups (Natural Red)

**F6 Pop-Ups** is built on identical attraction and flavor profile, as the **F6 HNV Boilie**. Packed with aminos and appetite-stimuli, it is a very effective bait on its own.

This quality Pop-Up is colored natural red and match perfect! to a feeding area consisting of our **F6 Boilie**. Tackles mounted with balanced/popped hook-baits, that match the feedings. Can be a devastating approach for shy fish. **F6 Pop-Ups** release its aromatic inner for a long time, and still, it will maintain a strong buoyancy effect.

Product	Amount	Price/1 glass	Artcode.
15mm. F6 Matching Pop-Ups	Around 50g/30 pcs.	6,50 euro	602-101
18mm. F6 Matching Pop-Ups	Around 50g/30 pcs.	6,50 euro	602-102

## Mussel Pop-Ups (Fluo Orange)

**Mussel Pop-Ups** is built on identical attraction and flavor profile, as the **Mussel HNV Boilie**. Packed with aminos and appetite-stimuli, it is a very effective bait on its own. Fluo Orange color, make a thorough visual part of the job. A stinking **Mussel Pop-Up** with high visibility, that release its aromatic inner for a long time, and still maintain a strong buoyancy effect.

Product	Amount	Price/1 glass	Artcode.
15mm. Mussel Pop-Ups (Fluo Orange)	Around 50g/30 pcs.	6,50 euro	602-106
18mm. Mussel Pop-Ups (Fluo Orange)	Around 50g/30 pcs.	6,50 euro	602-107

## Birdfood Pop-Ups (Yellow)

A Pop-Up that is build on a base of birdfood and is packed with aminos/appetite-stimulators. It makes an highly attractive food bait, with a discreet aroma that perfectly companion most sinking boilies. Suieable for further boosting.

Product	Amount	Price/1 glass	Artcode.
15mm. Birdfood Pop-Ups (Yellow)	Around 50g/40 pcs.	6,50 euro	602-152

*C.A. Baitline products is delivered within 3-5 days in Denmark, and within 2 weeks in rest of EU as long, as stock is available. To order see page 8.*

## Non flavor Pop-Ups

These Pop-Ups are created without flavor, so they can be boosted in every direction that fits your fishing. Let them soak in your favorite boost/liquid/flavor and get Pop-Ups with a personal touch, or use them as neutral balancing of sinking hook-baits.

Product	Amount	Price/1 glass	Artcode.
15mm. Non flavor Pop-Ups (Fluo white)	Around 50g/40 pcs.	6,00 euro	602-232
20mm. Non flavor Pop-Ups (Fluo white)	Around 60g/20 pcs	6,00 euro	602-233
16mm. Non flavor Pop-Ups (Fluo pink)	Around 50g/30 pcs.	6,00 euro	602-272

## Tigernuts

Dried Tigernuts mixed 7-15mm. Soak them in water for 24-48 hours, and then cook them for 45-60 minutes. This classic and selective bait is now ready to attract carps to the feeding area.

Product	Amount	Price/kg	Price/5kg	Artcode.
Tørrede Tigernuts (Mixed 7-15mm)	5 kg bags	4,68 euro	23,40 euro.	603-151

*C.A. Baitline products is delivered within 3-5 days in Denmark, and within 2 weeks in rest of EU as long, as stock is available. To order see page 8.*

## Bag/Stick Mix

Fishy Bag/Stick Mix releases a cloud effect in the water. Contains among other, crushed hemp, crushed maize, pellets, cornsteep-powder(CSP) and 20% fishmeal completes the blend. Perfect for PVA-bag or stick method, but can with advance be served as small feeding-balls on the chosen fishing spot.

Product	Amount	Price/1kg	Artcode.
Fishy Bag/Stick Mix	1 kg bags	6,60 euro	605-102
